In the Spirit of Giving

September 2005

Greetings from Vastu Creations!

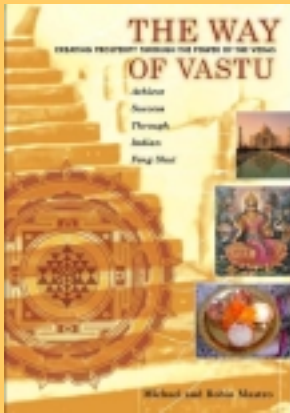

Autumn is beginning to show itself in the Great Northwest with leaves turning from green to golden brown and red. There is a chill that can be felt in the evening air. As the season changes and the warmth of summer gives way to fall, life-changing events occurring in our world are being felt by one and all. With so much tragedy affecting the US right now, there is great need. Many ask what they can do to help. People are donating money, clothing, and organizing for the basic needs of those who have lost everything. What else is there that can be done? We at Vastu Creations would like to offer a suggestion that will benefit those who have been devastated by the disaster in the South. It will bring a different kind of support and comfort, but one that is equally needed.

We suggest that you build a Life Changes and Transformation Altar, a Helpful People and Universal Support Altar, or a World Peace Altar and take time in front of your altar daily. Meditate, pray, chant, journal, or sing. Do whatever you feel will raise the life-force energy, or *prana*, in your body. Make a commitment to sit at your altar each day for at least 20 minutes. Send a blessing to those in the world whose lives have been affected by loss, devastation, trauma, disease, poverty, or pain. Your goodwill; your intention to bring peace to this troubled world will create miracles. Taking time in such a way is a blessing to yourself, to others, and to Mother Earth. To learn more about making altars to support our planet, please read ***Altars of Power and Grace ~ Create the Life You Desire.*** [Click here to read more..](#)

Things That Make You Go Mmmmm...

According to the Vastu perspective, the wealth of the United States is dramatically affected by the stabilizing influence of the Washington Monument and its positioning (on a slope to the south of the White House). The nation’s finances would be adversely affected if this positioning were missing.

When water is to the south, as it is at The White House, it can create disruption in the natural flow of earth energy necessary for economic stability and peace. According to Vastu, the ground should be higher in elevation to the south, without water, to bring strength and success to all endeavors. The Washington Monument corrects this imbalance.

If your home or office is compromised by environmental challenges it will effect you in many ways. Schedule a Vastu consultation today by calling Vastu Creations at **206-328-0122** and experience the many benefits that living in harmony with nature can bring!
