VASTU SHASTRA – Secrets for a Successful Life with Michael & Robin Mastro

Vastu Shastra is the sacred art and science of bringing harmony, peace, beauty, and prosperity into homes and offices. Vastu comes from the same Vedic wisdom texts and yoga, meditation, and Aryurveda and teaches that by aligning your environment with the five elements of earth, air, water, fire, and space (akasha), you can step into the flow of universal support life has to offer. Our homes and working environments are alive with potential and possibility. We have only to utilize this ancient knowledge to maximize our potential, reduce stress, and allow the universe to support our hopes and dreams.

Please join us for this informative and life-changing event presented by two of the foremost experts in

the field in North America, Michael and Robin Mastro, of Vastu Creations. Robin is an environmental designer and Michael is an award-winning designer who has designed spiritual centers worldwide and built the first Microsoft office building using Vastu. Together, with over forty years of experience in the field, they have developed a system of balancing the environment without demolition or remodeling using cutting-edge technology based on ancient wisdom. The Mastros have taught yoga, meditation, and other spiritual awareness techniques for many years and have written two books on Vastu, winning international acclaim. You can preview their books and a television interview with the Mastros at www.vastucreations.com.

This event is filled with valuable information including how Vastu can help you enhance

❏ Creativity ❏ Abundance ❏ Health
❏ Relationships ❏ Success

You will also be led on a short, guided meditation to balance the five elements within your body. A question and answer session will round out this program.

Attend this presentation and learn how Vastu will benefit you and your family.
